Security Officer OJT Checklist – Memorial Hermann TMC

Oct 9, 2026 · @Archie Speights

This checklist takes a new Memorial Hermann TMC Security Officer through eight skills sections, a competency test and three incident report examples, with trainer and supervisor sign-off on every section and manager sign-off at the end.

Trainee information

Field	Entry
Officer name	
Employee ID	
Hire date	
OJT start date	
Primary trainer (Senior Officer)	
Immediate supervisor	
Security manager	

How to use this checklist

1. The trainer demonstrates each task, the officer practices it, then the officer performs it alone while the trainer observes.
2. When the officer shows competency, the trainer initials and dates the line, and the officer initials to confirm they were trained.
3. A task that does not apply to the officer's assigned post is marked N/A with the immediate supervisor's initials.
4. The immediate supervisor signs at the end of every section. The security manager signs the final page after the competency test.

5. Passing score for the competency test is set by Security Management (80% is suggested).

Sign-off key: **T** = trainer initials, **E** = employee initials, **Date** = date the task was signed off.

Section 1: Department orientation

The officer can explain and perform each daily administrative function before working a post.

Clocking in and out

Task	T	E	Date
Clock in at the start of shift and clock out at the end using the approved timekeeping system			
Explain the rules for late punches, missed punches and punch corrections, and who to notify			
Take two 15-minute breaks and one 30-minute lunch, with the post relieved before leaving it			
Never clock in or out for another employee			

Badging procedures

Task	T	E	Date
Wear the Memorial Hermann ID badge visible at chest level at all times			
Badge into controlled doors and elevators and never prop or tailgate through them			
Never lend a badge or allow another person to use it			
Report a lost, stolen or damaged badge to dispatch and the supervisor immediately			

Assigning keys and radios

Task	T	E	Date
Sign out keys, radio and body-worn camera at dispatch and confirm they are logged on the inventory list			
Complete a radio check at the start of shift on the preset "security" channel			
Use proper radio etiquette: short, clear, no patient names or MRNs over the radio			
Report lost, damaged or malfunctioning keys, radios or cameras right away			
Return all equipment to dispatch at end of shift and confirm it is logged back in			

Time, schedule and PTO

Task	T	E	Date
Locate the posted schedule and explain how to request a shift swap			
Submit a PTO request through the approved process and know the notice required			
Follow the call-off procedure: who to notify, how early, and what to say			
Explain how overtime is approved before it is worked			

Property security

Task	T	E	Date
Explain the officer's role in protecting hospital property, equipment and personal belongings			

Task	T	E	Date
Recognize and report unsecured equipment, open doors and unattended items			
Report suspicious removal of hospital equipment to dispatch and the supervisor			

Uniform and vest

Task	T	E	Date
Wear a complete, clean, department-standard uniform with name badge and issued duty gear			
Wear the reflective vest at all times on traffic and exterior posts			
Wear and care for any other issued protective vest per department policy			

Section 1 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 2: Security-sensitive areas and garages

For every area below, the officer walks it with the trainer and can state its location, who is allowed in, how access is controlled, what the main security risk is, and who to call.

Security-sensitive areas

Area	T	E	Date
Emergency Center (EC): entrances, weapons detection, waiting lobbies, ambulance bay, triage			
Intensive Care Units (ICU): access doors, visitor rules, high-risk patient rooms			
Neonatal ICU (NICU): secured entry, infant protection, who may enter			
Labor and Delivery (L&D): secured entry, infant protection, visitor controls			
Pharmacy: restricted access, controlled-substance storage, who may enter			
Human Resources (HR): office hours, access, handling of upset employees or visitors			
Surgery waiting areas: family waiting rooms, escort routes, crowd and conflict concerns			
Locate cameras, panic buttons and duress alarms in each area above			

Parking garages

Task	T	E	Date
Sterling Garage: entrances and exits, levels, stairwells, elevators, emergency call boxes, camera coverage			
Garage 4: entrances and exits, levels, stairwells, elevators, emergency call boxes, camera coverage			
All other TMC garages: walk each one and identify entrances, stairwells and elevators			
Identify dark, isolated or high-risk spots in each garage and when to check them			

Task	T	E	Date
Explain how to escort a visitor, patient or employee to a vehicle on request			

Section 2 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 3: Security policies, procedures and emergency codes

The officer can state each policy in their own words and perform the security role in every response. Confirm all code definitions against the current Memorial Hermann emergency codes policy before signing off.

Policies and procedures

Task	T	E	Date
Visiting hours: state the hours, exceptions, and how to handle visitors who refuse to leave			
Life Flight: landing and arrival procedure, security role, and crowd and path control			
Telephone etiquette: answer professionally, identify self and department, take accurate messages, and transfer correctly			
Call dispatch at extension 40000 from any hospital phone when the radio is not usable			
Incident reports: when one is required, what facts it must contain, and the deadline to submit it			
Resolver: log in, find the incident entry screen, and enter a complete report			

Emergency code response

Task	T	E	Date
HUGS infant protection alarms: location of the system, how to read the alarm, and the officer's response			
Code Pink (infant abduction, or a breach of the L&D or child barrier where sensors are on the children): exits, stairwells and garage coverage, and what to look for			
Code Red (fire in the facility): assess with Engineering for a simple alarm reset, report any actual fire to the responding fire department, and support evacuation			

Task	T	E	Date
Code Blue (patient in cardiac arrest): respond for possible emotional or volatile family members or visitors, clear the path, and control the crowd			
Code Green (volatile or escalating behavior): who responds, how to approach, and when to back off			
Rapid Response (medical emergency): escort responders and keep the area clear			
Elevator entrapment: acknowledge the call, locate the car, communicate with those inside, and request elevator service			
Explain how to stay calm, use clear radio language and report status during every code			
Code Gray (inclement weather): a status sent across the hospital system to prepare for severe weather; explain the officer's preparation duties			
Active shooter: announced plainly as "active shooter" so there is absolute clarity; explain the officer's response and communication			

Section 3 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 4: Dispatch operations

The officer performs each dispatch function in the Security Operations Center under trainer supervision. Dispatch uses Resolver for reports and call logging, CCURE for access control and Avigilon for cameras.

Guard tours and radio traffic

Task	T	E	Date
Start and close a guard tour and confirm the tour is secured; two tours are required each shift			
Record tour completion percentage and each officer's completions			
Run radio checks and log them			
Take service calls, assign them to an officer and track them to completion			
Enter dispatch notes and calls for service in Resolver, including Avigilon camera names and body-worn camera serial numbers			

Cameras and alarms

Task	T	E	Date
View, switch and manage cameras in Avigilon, and know which cameras cover each key post			
Monitor and respond to Gamma Knife alarms and cameras			
Take emergency call box calls and elevator entrapment calls			
Receive and clear panic and duress alarms, and send an officer so one arrives within 2.5 minutes			
Monitor HUGS floors and respond to HUGS alarms			

Dispatching emergency codes

Task	T	E	Date
Dispatch and clear a Code Green and assign the responders			
Dispatch and clear Code Pink, Code Red, Code Blue, Code Gray and Rapid Response calls, and announce an active shooter plainly as "active shooter"			
Dispatch and clear elevator entrapments			
Decide how to staff a response with the Team Lead, Senior Officer or Officer in Charge			

Reports, tickets, badges and logs

Task	T	E	Date
Create a TSI report			
Create a TSI facility ticket and work order			
Create a badge and add or remove clearances in CCURE			
Log patient property in the property log with the MRN sticker handed over in person, never read over the radio			
Track keys, radios and body-worn cameras on the inventory lists			
Download scene photos to the system and never use personal phones			
Escalate crimes on campus and news-media-worthy events promptly			

Section 4 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 5: Vehicle patrol, garages and perimeter

The officer completes each patrol duty on the property with the trainer riding along, then alone with the trainer observing.

Patrol vehicle

Task	T	E	Date
Complete the vehicle inspection sheet at the start of every shift and report damage or defects before driving			
Use the fuel card and notify management when the vehicle needs refueling			
Drive safely on campus, yield to pedestrians, ambulances and Life Flight traffic			
Radio dispatch on leaving and returning from patrol and when stopping for an incident			

Parking enforcement and towing

Task	T	E	Date
Identify parking violations and apply the department enforcement process			
Handle a driver who disputes a violation calmly and professionally			

Task	T	E	Date
Tow a vehicle: required approvals, documentation, notifications and tow company contact			
Escalate high-value or sensitive vehicles to the immediate supervisor before any tow			

Garages, stairwells and building perimeter

Task	T	E	Date
Check exterior stairwells for loitering, damage, trash and unsecured doors			
Check lighting in all garage areas and report outages and dark areas			
Perimeter checks of all building doors at night: confirm each is locked and report any that are not			
Record each patrol in Resolver and notify dispatch of every finding			

Section 5 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 6: Medical plazas

The officer learns the plaza operation and records the key contacts below for the plazas they are assigned to cover.

Plaza reference sheet (trainer completes with the officer)

Plaza	Hours of operation	Contract security contact and number	Elevator access card location	Emergency contact and number

Plaza duties

Task	T	E	Date
State each plaza's hours of operation and what changes after hours			
Complete the round of the plaza perimeter and report findings to dispatch			
Contact the contract security officers for each plaza and explain who handles what			
Locate the plaza elevator access card in the TRAKA system, which opens to a new officer once clearance is granted in the system; explain who may use it and how it is signed out and returned			
Explain the emergency response process and the contact numbers for each plaza's security operation			
Secure and unsecure plaza doors at the correct times and log them			
Respond to a plaza incident, request backup and complete the report			

Section 6 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 7: Interior rounds

The rounding officer performs each duty inside the hospital under trainer observation.

Rounds and emergency response

Task	T	E	Date
Respond to a Code Green as the assigned rounding officer, as part of the four-officer response			
Respond to a duress alarm and clear it with dispatch			
Respond to Code Pink, Code Red, Code Blue, Code Gray, active shooter, Rapid Response and elevator entrapments			
Code Angel (intake or release of a deceased patient, with Hospital Administrator approval): receive the patient into the morgue and release to a funeral home with Hospital Administrator approval, following the full procedure			
Patrol sensitive areas and waiting rooms, and report findings to dispatch			
Round behavioral patient locations and report concerns to dispatch and unit staff			

Patient property and valuables

Task	T	E	Date
Respond to a patient belongings call: start the body-worn camera, tell dispatch, and go to the location			
Witness the clinical staff member's inventory while the sheet is completed in full			
Route the inventory copies correctly: patient or chart copy and pink copy on the bag			
Deliver sealed property in person to the dispatch office, never store it in the Emergency Center			
Place property in the property room or locker and state the location aloud so dispatch can log it			
Handle Behavioral Health Patient (BHP) property and store it in the behavioral patient lockers			
Document each transfer between units and notify dispatch before moving and when arriving			

Doors, lockups and lost and found

Task	T	E	Date
Document each request by staff to unlock a door: who, where, when and why			
Complete hospital lockups and unlocks on schedule and log them			
Respond to a lost and found report: take the report, record the item and follow the turn-in process			

Section 7 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 8: Emergency Center, visitors and HIPAA

The officer works Emergency Center posts under trainer observation and explains how privacy rules shape each action.

Emergency Center duties

Task	T	E	Date
Greet visitors and patients during business hours with a professional, welcoming approach			
Run weapons detection screening: bag search steps, wanding, and handling a red-light alarm			
Explain tobacco and ignition-source rules at the screening point and the amnesty box			
Document visitors to the hospital after business hours			
Patrol the waiting lobbies, perimeter and valet area and report findings to dispatch			
Respond to every code and call for help from the Emergency Center			

Law enforcement, HIPAA and Durfee letters

Task	T	E	Date
HIPAA: explain what protected health information is and what an officer may never say, post or share			

Task	T	E	Date
Never discuss a patient's presence, condition or location with callers or visitors unless policy allows			
Durfee (DERFI) letters: explain when law enforcement must complete one and what it must contain			
Collect completed letters and give them to the immediate supervisor or Senior Officer by end of shift			
If law enforcement refuses to sign, ask for the badge number, document the refusal and escalate to Emergency Room management			
Emergency Detention Order (EDO) arrivals: required forms and documentation			

Section 8 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Section 9: Competency test

Thirty-three multiple-choice questions cover Sections 1 through 8. The officer circles one answer per question, and the manager scores the test with the answer key at the end of this section.

Field	Entry
Officer name	
Test date	
Score (out of 33)	

Field	Entry
Passing score	

1. **How many breaks does an officer on a stationary post receive per shift?**
   - A. One 30-minute lunch only
   - B. Two 15-minute breaks and one 30-minute lunch
   - C. Three 20-minute breaks
   - D. Breaks only when the post is slow
2. **When may an officer leave a stationary post?**
   - A. Any time the area is quiet
   - B. When a coworker asks
   - C. Only when properly relieved, or to protect life
   - D. After two hours on post
3. **What should an officer do after losing a Memorial Hermann ID badge?**
   - A. Wait until the end of the shift
   - B. Borrow a coworker's badge
   - C. Tell HR next week
   - D. Report it to dispatch and the supervisor immediately
4. **Which information must never be said over the radio?**
   - A. A patient's MRN and personal information
   - B. The officer's location
   - C. The type of call
   - D. A request for assistance
5. **What is the dispatch extension on a hospital phone?**
   - A. 40000
   - B. 4000
   - C. 400
   - D. 4
6. **When must the reflective vest be worn on a traffic post?**
   - A. Only at night
   - B. Only in the rain
   - C. At all times

- D. Only when a supervisor is present

7. **How many guard tours are required each shift?**
   - A. One
   - B. Three
   - C. Four
   - D. Two
8. **What response time applies to a duress alarm?**
   - A. Within 15 minutes
   - B. Within 10 minutes
   - C. A physical response in 2.5 minutes or less
   - D. Only after the next guard tour
9. **What is a Code Blue?**
   - A. Fire
   - B. A patient in cardiac arrest
   - C. Infant abduction
   - D. Volatile behavior
10. **What is a Code Red?**
    - A. Fire
    - B. Severe weather
    - C. Cardiac arrest
    - D. Missing child
11. **What is a Code Pink?**
    - A. Fire
    - B. Cardiac arrest
    - C. Severe weather
    - D. Infant abduction or a breach of the L&D or child barrier
12. **Why is a Code Green response limited to about four officers?**
    - A. Other officers are on break
    - B. It is not a fixed rule
    - C. It allows quick assessment without overwhelming the scene, which could escalate it and deplete coverage elsewhere
    - D. Only supervisors may respond

13. **When is Rapid Response called?**
    - A. A medical emergency in the immediate area
    - B. A fire
    - C. A parking dispute
    - D. Lost property
14. **What is the correct response to an elevator entrapment?**
    - A. Pry the doors open
    - B. Wait for maintenance to call
    - C. Evacuate the building
    - D. Acknowledge the call, locate the car, talk with those inside and request elevator service
15. **A caller asks whether a patient is in the hospital. What is the correct response?**
    - A. Confirm and give the room number
    - B. Do not disclose patient information unless policy allows, and refer the caller to the proper channel
    - C. Give the patient's condition only
    - D. Ask the caller's relationship, then give the room
16. **Where does sealed patient property go after the inventory?**
    - A. Stored in the Emergency Center
    - B. The officer's locker
    - C. Delivered in person to the dispatch office, then placed in the property room or locker
    - D. The patient's vehicle
17. **Where does the pink copy of the inventory sheet go?**
    - A. Attached to the property bag
    - B. Given to the patient
    - C. Discarded
    - D. Given to law enforcement
18. **Where is Behavioral Health Patient property stored?**
    - A. On the general property room shelf
    - B. In Emergency Center storage
    - C. In the security desk drawer
    - D. In the behavioral patient lockers

19. **What does a red light on the weapons detection system mean?**
    - A. The system is ready
    - B. An alarm, so use the hand wand to locate the item before entry
    - C. The person may pass through
    - D. The battery is low
20. **How should bags be searched at weapons detection?**
    - A. Reach in with bare hands
    - B. Dump the bag on the floor
    - C. The owner opens the bag and displays the contents, and the officer never places bare hands inside
    - D. Skip bags that look empty
21. **What is the rule on tobacco and lighters beyond weapons detection?**
    - A. They are not permitted: discard them, use the amnesty box or return them to the vehicle
    - B. They are allowed in the waiting room
    - C. They are allowed for staff
    - D. They are allowed outdoors only
22. **A law enforcement officer refuses to complete or sign the Durfee letter. What does the officer do?**
    - A. Ignore it
    - B. Take their weapon
    - C. Deny all entry for an hour
    - D. Respectfully ask for the badge number, document the refusal and escalate to Emergency Room management
23. **What is Resolver used for?**
    - A. Payroll
    - B. Parking permits
    - C. Incident reports and dispatch calls for service
    - D. Printing badges
24. **Which system is used to view the CCTV cameras?**
    - A. CCURE
    - B. Avigilon
    - C. Resolver

- D. Axon

25. **What is CCURE used for?**
    - A. Access control and badge clearances
    - B. Camera viewing
    - C. Fuel tracking
    - D. Radio checks
26. **When is the vehicle inspection sheet completed?**
    - A. Weekly
    - B. Monthly
    - C. Only after an accident
    - D. At the start of every shift
27. **What should an officer do when the patrol vehicle needs fuel?**
    - A. Use a personal card
    - B. Notify management so it can be refueled with the fuel card
    - C. Park the vehicle
    - D. Ignore it until the next shift
28. **What is the purpose of night perimeter door checks?**
    - A. Cleaning the windows
    - B. Counting visitors
    - C. Confirming each door is locked and reporting any that are not
    - D. Issuing parking tickets
29. **What should an officer do on finding a garage light out?**
    - A. Report and document it
    - B. Ignore it
    - C. Repair it
    - D. Wait until morning
30. **What should an incident report contain?**
    - A. Only injuries
    - B. The officer's opinions
    - C. A verbal summary only
    - D. Factual details of who, what, when and where, actions taken and notifications, with no opinions

31. What is a Code Angel?

- A. A fire in the facility
- B. A severe weather status
- C. The intake or release of a deceased patient, with Hospital Administrator approval
- D. A missing patient

32. What is a Code Gray?

- A. A fire in the facility
- B. A patient in cardiac arrest
- C. An active shooter
- D. An inclement weather status sent across the hospital system

33. How is an active shooter announced?

- A. As a color code
- B. Plainly as "active shooter" so there is absolute clarity
- C. By quiet phone calls only
- D. Only to supervisors

Answer key (manager copy: remove before issuing)

1 B · 2 C · 3 D · 4 A · 5 A · 6 C · 7 D · 8 C · 9 B · 10 A · 11 D · 12 C · 13 A · 14 D · 15 B · 16 C · 17 A · 18 D · 19 B · 20 C · 21 A · 22 D · 23 C · 24 B · 25 A · 26 D · 27 B · 28 C · 29 A · 30 D · 31 C · 32 D · 33 B

Section 9 sign-off

Role	Printed name	Signature	Date
Scored by (manager)			
Immediate supervisor			

Section 10: Incident report examples (Report Exec)

These three examples are fictional and use made-up names, times and camera names. The trainer walks the officer through each one, then the officer writes a report from a practice scenario. A good narrative states facts in time order, names who did what, and contains no opinions.

Example 1: Code Green in the Emergency Center waiting lobby

Field	Entry
Report type	Disturbance / Code Green
Date and time	10/02/2026, 14:12
Location	Emergency Center adult waiting lobby
Reporting officer	Officer A. Rivera
Persons involved	Visitor 1 (adult male), Registration Clerk, Weapons 2 Officer
Cameras	ED-Adult-Waiting-2, ED-Triage-Desk
Body-worn camera	Activated, serial number on file
Notifications	Dispatch, Security Supervisor, ED Charge Nurse

Narrative: At 14:12 the registration clerk asked me for help with Visitor 1, who was shouting at staff about a wait time. I notified dispatch by radio and requested a Code Green. Visitor 1 continued shouting and stepped toward the triage desk. I stood at a safe distance, kept my hands visible and asked him to speak with me away from the desk. He agreed at 14:15 and walked with me to the side of the lobby. The Senior Officer arrived at 14:16. I explained the wait process, and he sat down at 14:21. No force was used, no one was injured and no property was damaged. Dispatch cleared the Code Green at 14:24. The ED Charge Nurse was told about the incident.

Example 2: Vehicle damage in Sterling Garage

Field	Entry
Report type	Property damage / vehicle
Date and time	10/04/2026, 19:40
Location	Sterling Garage, Level 3
Reporting officer	Officer D. Johnson
Persons involved	Reporting party (visitor), unknown driver
Cameras	Sterling-L3-East, Sterling-Exit-Lane

Field	Entry
Notifications	Dispatch, Security Supervisor

Narrative: At 19:40 a visitor flagged me down on Level 3 and reported that her silver sedan had a dent and paint transfer on the rear bumper that was not there when she parked at 15:30. I photographed the damage with the department camera and recorded the vehicle plate. The visitor said she did not see the collision. I asked dispatch to review Sterling-L3-East for the 15:30 to 19:40 period. Dispatch reported that no footage showed the area of the vehicle. I gave the visitor the report number, told her that she may file a police report, and offered to escort her to the exit. She declined an escort and left at 20:05. The Security Supervisor was notified.

Example 3: Elevator entrapment

Field	Entry
Report type	Elevator entrapment
Date and time	10/06/2026, 08:05
Location	Elevator 4, between floors 2 and 3
Reporting officer	Officer K. Patel
Persons involved	Two visitors inside the elevator
Notifications	Dispatch, Security Supervisor, elevator service, Facilities

Narrative: At 08:05 dispatch sent me to Elevator 4 after an emergency call from inside the car. I arrived at 08:08 and spoke with the two visitors through the door. Neither reported an injury or medical problem. I told them that help was on the way and stayed beside the elevator. Dispatch contacted elevator service at 08:09 and I confirmed the car location. I kept the area clear and spoke with the visitors every few minutes. Elevator service arrived at 08:34 and brought the car to the next floor at 08:41. The two visitors left the elevator unhurt. Dispatch cleared the call at 08:45.

Section 10 sign-off

Role	Printed name	Signature	Date
Trainer			
Immediate supervisor			

Final sign-off

By signing, the employee confirms they received the training listed here, and the trainer, immediate supervisor and manager confirm the employee performed each task and passed the competency test.
